PROFESSIONAL PROFILE

With 6 years of experience in web development, I specialize in building dynamic, scalable web applications. My front-end expertise includes HTML, CSS (SASS, LESS), JavaScript, jQuery, React.js (Redux, Zustand, React Query), Next.js (SSR, server actions), and UI libraries like Bootstrap, MUI, Ant Design, and Chakra UI. On the back end, I work with Node.js (Express.js, Nest.js) and MongoDB.

I'm proficient with tools like Git, GitHub, GitLab, Bitbucket, Jira, Trello, Confluence, Figma. I work comfortably across MacOS, Linux, and Windows. Fluent in Armenian and Russian, with B2/B1 English proficiency, I bring strong communication, organizational, and multitasking skills. I'm committed to writing high-quality code, delivering great user experiences, and continuously learning to stay current with evolving technologies.

SKILLS AND ABILITIES

- **Front-End:** HTML, CSS (SASS, LESS), jQuery, JavaScript, React.js, Next.js
- **UI Libraries:** Bootstrap, MUI, Ant Design, Tailwind, Chakra UI
- **Back-End:** Node.js, Nest.js, Express.js, MongoDB, Postgresql
- **DevOps & Tools:** Docker, Git, GitHub, GitLab, Bitbucket, CI/CD (ArgoCD), Sentry, Loki (Grafana), Fingerprint, Crowdin
- **Collaboration:** Jira, Trello, Confluence
- **AI Tools:** ChatGPT, DeepSeek, GitHub Copilot, Cursor AI
- **OS:** MacOS, Linux, Windows
- **Soft Skills:** Strong communication, organizational and multitasking skills
- **Languages:** Armenian, Russian (fluent), English (B1/B2)

EDUCATION

Armenian Code Academy
JavaScript, React JS course (August 2019 - January 2020)

National Research Nuclear University MEPhI (Moscow)
Automation and Electronics Faculty Master's Degree (2016 - 2018)

National Polytechnic University of Armenia
Faculty Power Engineering Bachelor Degree (2010 - 2016)

WORK EXPERIENCE

Software Development Engineer
XData(September 2024 - till now)

- Responsible for building responsive UI pages created with Next.js and ChakraUI
- Develop new user-facing features and maintain existing web-based software applications
- Improve APP performance, SEO optimization, SSR
- Use Grafana and Argo CD to monitor application logs and deployments

Teach stack: React.js, Next.js(app router), SSR, TypeScript, Tailwind, ChakraUI, GSAP, React query, Zustand, NGINX, Crowdin, Fingerprint, Sentry, Docker, ArgoCD, Loki(Grafana)

Software Development Engineer
Docus.ai (May 2023 -August 2024)

- Responsible for building responsive UI pages created with Next.js and Styled Componets
- Develop new user-facing features and maintain existing web-based software applications
- Improve PWA performance, SEO optimization
- Keep up to date application packages

Teach stack: React.js, Next.js(app/pages), TypeScript, Styled Componets, Tailwind, Antd Design Components, GA4, Structured data

The Software Development Company (August 2021 - October 2022)

- Making web application and support.
- Responsible for adding new functionalities and features,
- Develop new user-facing features and maintain existing web-based
- software applications

Teach stack: React.js, Redux(Saga), TypeScript, Next.js(v13), Styled Components, HTML, CSS, SCSS

Mid Level ReactJS Developer
BeeWeb (January 2021 - August 2021)

- Making web application and support.
- Responsible for adding new functionalities and features,
- Develop new user-facing features and maintain existing web-based software applications

Teach stack: React.js, Redux(Saga), TypeScript, Ant Design, HTML, CSS, SCSS

Full Stack JavaScript Developer (MERN Stack)
Floopen Studio (April 2020 - May 2021)

- Responsible for adding new functionalities and features,
- Develop new user-facing features and maintain existing web-based
- software applications

Teach stack: React, Redux(Thunk), React Bootstrap, HighCharts, AntDesign, Node.js, Express, MongoDB, Passport.js

Intern JavaScript Developer
Simply Technologies (Jan. 2020 - March 2020)

- JavaScript course, making mini game, work with Front-end tools
- Introduction to server side JavaScript(Node JS).
- Final project

Teach stack: React, Redux, Node.js, Express, MongoDB, Mangoose, Robo 3T, Passport.js, Cloudinary, MaterialUI, HTML, CSS, LESS

Intern/Junior Frontend Developer
Esterox (March 2019 - January 2020)

Teach stack: HTML, CSS, jQuery, JavaScript, Codeigniter, MVC

ARMY SERVICES

Sergeant (2011 - 2013)
